

Volt

Work with us

*on a glorious future
for people and planet*

**Make
change,
create
progress**

European Politics in your pocket

**Build
your Future
together!**

FUTURE  MADE IN EUROPE

Volt builds the democratic Future of Europe

Volt

Volt not only has the voice of the future.
Volt also has the hands of the future.

We empower people and organizations in building Our Common Future together.

And it all starts with you!

What we achieved

In the past three years :

- we launched Connect, our democratic innovation platform in the Netherlands
- we developed a democratic, pan-European policy-making process in Volt
- and established our first external partnerships
- In addition to participating in four elections and preparing the fifth

My ambition

as a European Board Member is to embed this direct democratic way of working in our European organization.

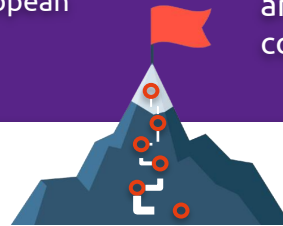

So that Volt as a whole can work effectively with the public to create real European progress.

OLETTE BOLLEN
Candidate non-Executive Board Member

See my profile and let's connect

My 4-step-plan:

- 1 Bring our **Connect Innovation Platform** on a European level.
- 2 Expand our **External Network** and have more **Collaborative Projects and Partnerships**.
- 3 Create an **E-Democracy Tech Lab** to experiment with several tools to see what works.
- 4 Provide the necessary **Resources** to make this all happen 😊.

FUTURE  **MADE IN EUROPE**

powered by you!
